

Affirm[™] Anti-Aging Workstation

- **Wrinkle reduction**
- **Pigmentation and redness**
- **Improvement of overall skin texture**

According to the Millennium Research Group "US Markets for Aesthetic Lasers 2006" report, the skin rejuvenation market is expected to experience an 18 percent annual growth rate, and will present a \$239.4 million industry in 2010, with approximately 4.4 million annual procedures.

General Affirm Quotes

"Our patients love the Affirm laser treatment. It is comfortable, effective and has minimal duration of erythema. Our patients are recommending Affirm to their friends!"

Douglas J. Key, MD
Key Laser Institute for Aesthetic Medicine
Portland, OR

"The Affirm is also more effective than what I observed for skin tightening with other light based devices in a similar range of wavelengths"

Michael Gold, MD
Director, Gold Skin Care Center
Nashville, TN

"The Affirm's CAP Technology is extremely intelligent with the combination of high and low level heat, covering a greater surface area of skin and enhancing treatment outcomes."

Robert Weiss, MD
Assistant Professor of Dermatology Johns Hopkins University School of Medicine
Maryland Laser, Skin & Vien Institute
Hunt Valley, MD

"The Affirm has been a great addition to my practice. Patients are extremely happy with the results and you can see improvement in as little as three treatments."

Bruce Katz, MD
Director, JUVA Skin & Laser Center
New York, NY
