

Affirm[™] Anti-Aging Workstation

- **Wrinkle reduction**
- **Pigmentation and redness**
- **Improvement of overall skin texture**

General Affirm Quotes

"When used properly, Affirm's unique CAP Technology is effective and safe for improving the texture and appearance of photoaged skin."

Brian Biesman, MD
Oculoplastic Surgeon
Nashville Centre for Laser & Facial Surgery
Nashville, TN

"I just purchased an Affirm Laser with XPL three weeks ago after attending a Cynosure presentation. I am very pleased by the quality of the engineering and design features of the equipment. The installation and training team are top notch and very helpful. I appreciate the marketing package and commitment by Cynosure to help me succeed in this endeavor. I feel the Affirm laser and XPL will enhance my ability to care for my patients in a primary care setting, and I have always enjoyed using cutting edge technology in my work."

David Schwartz, MD

"The Affirm has been a great addition to my practice. Patients are extremely happy with the results and you can see improvement in as little as three treatments."

Bruce Katz, MD
Director, JUVA Skin & Laser Center
New York, NY

"I love the Affirm! All of my patients are switching over to it!"

Sherry S. Collawn, MD
Clinical Professor of Plastic Surgery University of Alabama
Mountain Brook Plastic Surgery & Laser Center
Mountain Brook, AL

"I purchased the affirm 5 months ago and have performed approximately 70 treatments with virtually no patient downtime. Patient satisfaction is overwhelming- delighted with reduction of fine lines and wrinkles, improvement of acne scarring and pore size. I have been doing laser skin rejuvenation 8 years and find the Affirm to be the best with overall firming and improvement of smoothness of skin."

Maryellen O'Reilly, MD
Med Weight and Lasers
