

Affirm[™] Anti-Aging Workstation

- **Wrinkle reduction**
- **Pigmentation and redness**
- **Improvement of overall skin texture**

Patient Quotes

"Overall the Affirm laser was the better choice compared to the Fraxel. It simply works better, I see results faster, was much less painful and less redness than the Fraxel laser. I had a lot of flaky, scaly skin for 5 days post Fraxel and the procedure was still painful even with a topical."

Margaret T., Mountain Brook Plastic Surgery
Nashville Centre for Laser & Facial Surgery
Nashville, TN

"The Affirm laser has done wonders for my melasma. My skin feels much smoother and I've only had four treatments!

Amy C., Mountain Brook Plastic Surgery

"The Affirm was wonderful! Compared to the Fraxel, this was heaven!"

Ann Marie R., Mountain Brook Plastic Surgery
Mountain Brook Plastic Surgery & Laser Center
Mountain Brook, AL

"I can't believe the results I've seen in only one TX! My eyes look 10 years younger and I feel great! I am definitely going back for more."

Charlotte R., Nashville Centre for Laser and Facial Surgery
